

## V-CAST™

Velocity's V-CAST™ allows your guests to cast their favorite movies, TV shows, music, and more from their mobile device to the TV.

### Keep guests entertained with their favorite streaming apps

Velocity's V-CAST™ solution allows your guests to Bring Your Own Content® by enabling them to use the streaming apps they love from their mobile device in their rooms at your hotel or inn. The in-room Over-The-Top (OTT) streaming solution powered by Chromecast™ gives guests a simple solution to access all their favorite programs and services without the hassle of signing in.

Within seconds of connecting to your Wi-Fi, guests can cast in their rooms. This service also helps bypass the remote controls allowing guests to use their mobile devices to control their TV.
