

Wireless 4G/5G Failover

Our 4G/*5G Cellular Failover solution ensures you'll always have a reliable, cost-effective backup network for your business.

A reliable backup connection for when all else fails

Velocity's 4G/*5G Cellular Failover offers a reliable and cost-effective solution to maintain your connectivity in times of need. Unfortunately, natural and human-made disruptions to landline WAN circuits occur all too often, potentially bringing your business to a standstill. Whether it's the ability to service customers, process payments, or secure your site, deploying a cellular wireless solution with automatic failover ensures your business operations run smoothly.

Velocity offers plans that are easy to implement and quick to deploy. With so many critical business services reliant upon 24/7 connectivity, Velocity's 4G/*5G Cellular Failover is a practical and affordable insurance policy to keep your sites connected when they need it most.
